

## QPC FLOORING GUIDE

---

# LUXURY RIGID CORE FLOORING

The QPC Collection by Pacific Hardwood represents the next evolution in flooring—bringing together European design, advanced technology, and the enduring beauty of hardwood.

- Crafted to emulate natural wood with precision, each plank features authentic grain movement, reactive stain tones, and long-length proportions that elevate any space.

## Key Features:

- Rigid Core Vinyl (Quartz Polymer Core) for strength and stability
- Authentic European Oak visuals
- Available in 7.2" and 9" widths with 5' lengths
- Waterproof, scratch-resistant, and easy to maintain
- Designed for luxury residential and commercial interiors

# THE QPC COLLECTION

Pacific Hardwood proudly offers its first distinct QPC line—inspired by the artistry of design and the heritage of natural materials.

Crafted with precision and purpose, this collection brings together timeless beauty and modern performance. Available in 7.2” and 9” widths with 5’ lengths, each plank features rich, dimensional color movement and refined tones designed for today’s interiors. The result is a flooring line that captures the warmth and texture of handcrafted wood while offering a cohesive aesthetic that elevates any space.
